Introduction to the Final PEIR	iv
Chapter 7	Recirculated Portions of the Draft PEIR 7-1
Chapter 8	Response to Comments on the Draft PEIR 8-1
Topical Response 1	Environmental Setting/Baseline Conditions..... 8-6
Topical Response 2	Project-Level vs. Program Level PEIR 8-7
Topical Response 3	Application of Project Design Features and Standard Conditions to Mitigate Potential Impacts 8-9
Topical Response 4	NCCP/HCP 8-19
Topical Response 5	Existing Impaired Hydrological Conditions 8-20
Topical Response 6	Runoff to Borrego Canyon Wash, Serrano Creek and Aliso Creek..... 8-21
Topical Response 7	Portola Hills Issues 8-24
Topical Response 8	Schools 8-40
Topical Response 9	Traffic 8-42
Topical Response 10	Landslides 8-46
Topical Response 11	Alternatives 8-48
Topical Response 12	Notice 8-50
Comments and Responses - Government Agencies and Nongovernmental Organizations	8-53
Comments and Responses - Individuals	8-189
Chapter 9	Response to Comment on Chapter 7 9-1
Comments and Responses	9-2
 Appendices	
Appendix O	Alternative 7 (Hybrid Traffic Report)
Appendix P	Mitigation Monitoring and Reporting Program

Chapter 7

Figure 7.4.1

Recirculated Portions of the Draft PEIR

Alternative 7 Land Use Map 7-38

Chapter 8

Figure 8.2-1

Figure 8.2-2

Response to Comments on the Draft PEIR

2006 Proposed Project: 1,132 Dwelling Unit Plan 8-28

Alternative 7: 930 Dwelling Unit Plan..... 8-31

Tables

Chapter 7

Recirculated Portions of the Draft PEIR:

Revised Table 3.8-1	Assigned Runoff Coefficients for the Proposed Project	7-7
Revised Table 3.8-2	Magnitude of Runoff Coefficient Change for Proposed Project	7-7
Table 7.2.6-1	Jobs/Housing Balance Comparison	7-18
Table 7.2.6-2	Fleet Average GHG Exhaust Emission Requirements.....	7-21
Table 7.2.6-3	Summary of Greenhouse Gas Emissions	7-27
Table 7.2.7-1	Total Potable Water Demand	7-35
Table 7.4-1	Alternative 7 Summary.....	7-39
Table 7.4-2	Alternative 7 Land Use and Trip Generation Summary.....	7-53
Table 7.4-3	2030 Intersection LOS Summary within Project Area (Alt 7)	7-54
Table 7.4-4	2030 Intersection LOS Summary with Extended Project Area (Alt 7).....	7-55
Table 7.4-5	Comparison of Impacts of Alternative 7 to the Proposed Project ..	7-60
Revised Table 4-55	Summary of Impacts of Alternatives Compared to Proposed Project.....	7-69
Revised Table 4-56	Summary of Project Objectives Compared to Proposed Project.....	7-71

Chapter 8

Response to Comments on the Draft PEIR:

Table 8.1-1	List of Commenters on the Draft PEIR - Government Agencies and Nongovernmental Organizations By Organization	8-2
Table 8.1-2	List of Commenters on the Draft PEIR Individuals (by Last Name).....	8-3
Revised Table 3.8-1	Assigned Runoff Coefficients for the Proposed Project	8-22
Revised Table 3.8-2	Magnitude of Runoff Coefficient Change for Proposed Project	8-23
Table 8.2-1	Existing Portola Density.....	8-27
Table 8.2-2	Proposed Portola South Density 2006 Proposed Project.....	8-27
Table 8.2-3	Existing Portola Density.....	8-30
Table 8.2-2	Proposed Portola South Density Alternative 7	8-27
Table 8.2-5	Saddleback Ranch Road and Glenn Ranch Road Intersection.....	8-35
Table 8.2-6	Comparison of 2030 General Plan Trip Generation and 2030 Opportunities Study Strip Generation From Portola Hills (2006 Proposed Project).....	8-36
Table 8.2-7	Comparison of 2030 General Plan Trip Generation and 2030 Opportunities Study Strip Generation From Portola Hills (EIR Alternative 7	8-36
Table 8.2-8	Project School Generation – Portola Hills	8-39
Table 8.2-9	Trip Generation Summary – Portola Center	8-43
Table 8.2-10	Increase in 2030 Employment Growth.....	8-45
Table 8.2-11	2030 ADT Summary	8-45
Table 8.2-12	2030 ICU Summary	8-46
Table 8.1-13	List of Commenters on the Draft PEIR - Government Agencies and Nongovernmental Organizations By Acronym.....	8-53
Table 8.1-14	List of Commenters on the Draft PEIR Individuals (by Acronym)	8-189
